ALE-500 Dual Gigabit Ethernet Enterprise DeskPhone

Artikelnummer: 3ML27520AA

**€960,00**

Incl. 21% BTW

Description

This phone is part of the Enterprise and IP phone ranges. With its 5.5 inch color touch display and an intuitive navigation Smart Pad, the ALE-500 Enterprise DeskPhone (ALE-500) delivers a great user experience and increased convenience with an outstanding super wideband audio quality (3D Symphonic HD) in hands-free mode with a 3D audio. Its large screen can display a numeric or alphabetic keyboard and a virtual add-on with 12 keys. You can change the color of the phone by using an ALE-140 DeskPhone customization kit (Neptune Blue in the following picture). You can personalize the phone by selecting a theme (skin). It is compatible with remote working. Consequently, it is perfect for use in your Enterprise office or in Home working. Depending on the model, your desk phone improves your experience with its Bluetooth® handset(1). Your phone is 'Bluetooth® Smart Ready'(1). You can use your desk phone (hands-free mode, handset or headset) to make and receive calls from your mobile phone or your personal computer(1). Your desk phone can stream audio from a Bluetooth® paired smartphone or a connected computer with HD audio quality. Your desk phone acts as a Bluetooth-enabled mobile phone player or an external speakerphone when connected to your computer, for all audio apps such as e-learning webinars, music, podcasts and videos(1). Your desk phone manages two network interfaces: LAN Ethernet (wired) and WLAN (Wireless LAN – Wi-Fi)(1).
